SUMMARY

Frontend Engineer with 1-2 years of experience in building data-intensive applications using modern web technologies such as React, TypeScript, and Node.js. Proficient in developing robust, user-centric interfaces that simplify complex compensation processes. Strong advocate for collaborative problem-solving and Agile methodologies, focusing on delivering impactful solutions in fast-paced environments. Proven ability to visualize data effectively and optimize rendering for smooth user experiences, enhancing user engagement and driving system reliability.

SKILLS

Programming Language: HTML, C++, C#, JavaScript/TypeScript, Python, Java, PHP

Frontend: React, React Native, Next.js, Tailwind CSS, Material UI, Kendo UI, Sass, Bootstrap, jQuery

Backend: Node.js, ASP.NET Core, FastAPI, Spring Boot

Database: MySQL, PostgreSQL, MongoDB

Cloud: Google Cloud Platform, Amazon Web Services

Tools: Git, Docker, Jenkins, Visual Studio, VS Code, Postman, Figma

EXPERIENCE

Frontend Engineer

Cognizant • Feb 2023 – Nov 2024 • Philadelphia, PA

- Engineered data-rich interfaces using React and TypeScript, enhancing user engagement by 30% through effective visualization of complex compensation data.
- Developed scalable APIs with Node.js, optimizing response times by 40% and efficiently managing over 1,000 requests per minute, ensuring robust performance in high-growth environments.
- Collaborated with product managers and designers to balance speed with thoughtful technical decisions, delivering impactful solutions that simplified compensation processes.
- Deployed applications on Google Cloud Platform, supporting up to 1,000 concurrent users and enhancing system reliability through effective cloud management.

Full Stack Developer

VironIT • Jul 2018 – Jan 2023 • Philadelphia, PA

- Developed dynamic applications using React.js and Node.js, improving performance by 20% while focusing on user impact and data visualization.
-

Engineered backend systems with Node.js and Spring Boot, increasing system reliability by 30% and supporting data-intensive applications.

- Migrated a React application to Next.js, improving SEO and performance by 13%, while enhancing user experience through responsive design.
- Achieved 90% code coverage through automated testing with Jest and Mocha, ensuring high-quality code and performance optimization.

Frontend Developer

United By Blue • Jun 2016 – May 2018 • Philadelphia, PA

- Developed and maintained interactive web applications using React.js, increasing performance by 25% and enhancing user satisfaction through optimized UI/UX design.
- Resolved critical front-end bugs, improving system stability by 35% and demonstrating adaptability in ambiguity during project execution.

Frontend Developer

Spreadknowledge • Jul 2014– May 2016 • Jenkintown, PA

- Built performant applications using React.js and Redux, enhancing performance by 25% and implementing JWT-based authentication to boost application security.
- Improved user satisfaction by 25% through optimized UI/UX design and effective data visualization techniques.

EDUCATION

Bachelor's Degree in Computer Science

Indiana University of Pennsylvania • Indiana, PA • 2014
